Description of fiscal impact:

SB 459 gives preference to products made in the United States when equal choices exist in the procurement process. There is no fiscal impact to the state.

FISCAL ANALYSIS

Assumptions:

1. "American-made" means either a product made exclusively within the United States or a value-added product consisting of a product that contains 50% or more of materials from the United States.
2. In the case of a tied procurement bid, preference must be given to the bidder offering American-made products or supplies.
3. For the purposes of this fiscal note it is assumed the Department of Administration, State Procurement Bureau, would develop guidelines or adopt policies that executive branch agencies would follow during the competitive sealed bidding process.
4. SB 459 becomes effective 10/01/2007 and would apply to all competitive sealed procurement bids requested after that date.
